

Tree Spy **Tree observation sheet** Names of the group:

Before you start:

1. What is the weather like?

Is it sunny or cloudy?

Is it warm or cold?.....

Is there wind?.....

Is there rain?.....

2. What kind of tree are you observing?

Do you know the species?.....

Is the tree tall or small?.....

Are there flowers in the tree?.....

Draw a picture of your tree:

Observations:

Find a nice spot to sit under the tree. Watch the tree for 5 minutes. Write in the box what you see.

1st 5 minutes of observation:

<p>Do you see any animals? What kind? (birds/insects/other animals)</p> <p>.....</p> <p>What are the animals doing?</p> <p>.....</p> <p>What is the tree doing?</p> <p>.....</p> <p>Do you see other things?</p> <p>.....</p>

Take a little break and change your location. Find another place from where you can observe the tree. Again; observe the tree for 5 minutes and write down what happens.

2nd 5 minutes of observation:

<p>Do you see any animals? What kind? (birds/insects/other animals)</p> <p>.....</p> <p>What are the animals doing?</p> <p>.....</p> <p>What is the tree doing?</p> <p>.....</p> <p>Do you see other things?</p> <p>.....</p>
